Expectations for the SET To test New River Valley Amateur Radio Club's new Brush Mt. winlink gateway.

Demonstrate winlink and train more hams in it's use.

Operate voice and winlink from the Greater New River Valley in downtown Christiansburg

What Occured We met our three main goals. Roger Hudson ,Diaster Program Manager for the New River Valley and Woods River Chapters of the Red Cross visited and sent a winlink message.

What Went Well and Why The Brush Mt. winlink gateway performed without any problems and provides the only winlink gateway that can be used from the Red Cross location in downtown Christiansburg. Three more ham operators were introduced to winlink because of their willingness to to give up a Sat. and participate in the SET.

Improving Operation and How Overall it went very well. Any bugs and kinks that occurred only show that we need these exercises. Thanks to everyone involved.
