Expectations for the SET First time with this type exercise. I suppose my expectations were to learn how they are conducted and the way things work in this type situation.

What Occurred: I was nervous and overwhelmed at first but as the exercise moved through the different stages it became more clear as what was expected.

What Went Well and Why: This being my first experience I believe that on my end all went well.

Improving Operation and How: I believe that if new HAMS are involved more explanation and training should be offered.
