<b>Expectations for the SET</b>	As a HEART member, messages being transferred from site to site. Continued improvement in communication processes.
<b>What Occured</b>	Always some brush fires. However that is why we do drills. Messages smoothly moved from facilities to Net Control, and then back again.
<b>What Went Well and Why</b>	Simply put: Teamwork. Prepared messages afforded us the opportunity to get messages passed, allowing Net Control operators to respond at a calmer pace.
<b>Improving Operation and How</b>	We all need to learn to process messages at a faster pace. Personally, I need to learn more about digital.
